May 11, 2015

Dear student/parent:

It is indeed our pleasure to welcome you to the Project SMART Summer Institute from Sunday, June 28 – Friday, July 24, 2015 at the University of New Hampshire. I know that you have been waiting anxiously for the next step in preparing for your trip to New Hampshire. To complete your registration and re-confirm your attendance, please log into the Project SMART online registration at: https://www.events.unh.edu/RegistrationForm.pm?event_id=17699

Please note that part of this registration includes various waivers and forms that a parent or guardian will need to verify that each one has been reviewed and agreed to. All of these waivers must be reviewed and accepted before you can attend the program.

We would like to emphasize that students and parents/guardians must understand the importance of discipline and responsibility of the student during his/her stay at UNH. This will ensure that the program is a lively and memorable learning experience for everyone.

If you are traveling by air, please let us know your itinerary as soon as possible, by emailing Pam Wildes at Pamela.Wildes@unh.edu. Keep in mind that you should plan to arrive at Gibbs Hall, UNH on Sunday, June 28, 2015 between 3:00 – 6:00 PM unless you are flying in – in that case you may be able to arrive earlier, but let us know your exact schedule. The program ends around 2:00 PM on Friday, July 24 (so don’t plan a flight before 7:00 PM from Boston). Parents are invited to attend the closing day activities (9:00 AM - 2:00 PM) on July 24; more details will be forthcoming.

All payments are due before June 1 unless you have discussed the situation for alternate payment plan with Dr. Subhash Minocha. For more updates about the program, please check www.smart.unh.edu periodically. Just to let you know that the program this year will include students coming all the way from Alaska to NH and Puerto Rico, and also from Turkey and Greece.

We look forward to having you with us for a learning experience that will not be forgotten! Feel free to contact us with questions.

Dr. Subhash C. Minocha
Director, Project SMART
Professor of Biological Sciences and Genetics
